Adhira Shipping and Logistics

Winner of the Bulk Logistics Excellence Award

Adhira Shipping and Logistics DMCC (ASL) aims to offer game-changing solutions that result in a thriving industry and workforce throughout Africa. Founded in 2022 under the leadership of Captain Pappu Sastry, ASL helps connect the dynamic African regions to global markets. The shipping and logistics company, based in Dubai, with a back office in India, has been growing year-on-year with special long-term logistics projects that are tailor-made to the needs of each customer. Though ASL can provide a wide range of services, the focus is to offer only what is needed for each customer and not burden customers with all the services that ASL offers. This approach has been the trademark of Captain Pappu Sastry for many years and has worked wonders in terms of customer experience and customer satisfaction. ASL has been increasing its activities rapidly through a focus on long-term contracts and enduring partnerships.

Adhira Shipping and Logistics (ASL) has won several awards, including the Bulk Logistics Excellence award at the IBJ Awards in London in 2023 and in Antwerp in 2023. In 2022, IBJ also awarded Capt Sastry as Entrepreneur of the Year.

Services: All services are management services provided to clients and acting either on their name or own:

PROJECT MANAGEMENT:

ASL offers project management, which will help you plan, manage, and achieve each shipping and logistics project successfully. The projects are both dry and wet cargo movements mainly in Africa.

MINING LOGISTICS:

ASL is a specialist in mining logistics providing an integrated solution from the mine to the buyer. The logistics services are customised for each

customer and includes transportation, storage, bagging and ship chartering. ASL can manage the logistics for each bulk commodity and provide the specific handling requirements, compliant with international safety and security standards throughout the supply chain.

COMMODITY TRADING:

ASL also offer trading management to connect sellers to the buyers. With our vast network of suppliers and deep industry knowledge, we can help you find the products you need at competitive prices.

M&A:

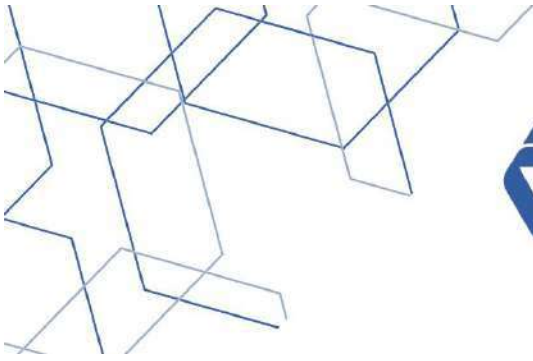

ASL under group companies offers consultancy for Mergers and Acquisitions. These are related to mines, infrastructure and several oil & gas projects mainly in Africa and South America.

TransBridge Pool is a strategic joint venture between Transworld Group and BainBridge Navigation—two formidable forces in global shipping. Together, we have established a modern, transparent pooling platform for dry bulk and tanker owners worldwide, built on a foundation of integrity and performance.

We operate on a principle of radical transparency. Every vessel within the pool is employed under clear, consistent terms, with earnings distributed through a fair and equitable pool-point system. This model accounts for specific vessel technicalities and operational performance, ensuring that value is shared based on merit. Because our promoters participate as owners themselves, our interests are perfectly aligned with our partners: the platform is engineered to maximize returns for the entire fleet, not just a select few.

Mining Expertise
Trusted Solutions
Global Impact

www.gscprojects.com

Global Strategic Commodities (GSC) is a leading M&A advisory company delivering high-impact, strategic outcomes across Mining, logistics, Oil & Gas, Renewables, and Agriculture. Leveraging decades of hands-on international experience, GSC helps clients navigate complex transactions and unlock sustainable value across the deal lifecycle.

With global reach and deep expertise in Africa, GSC combines sector knowledge, financial insight, and logistical understanding to provide solutions tailored to each client's strategic objectives. GSC emphasizes long-term partnerships, ensuring every transaction is structured for lasting sustainable impact.

How GSC Adds Value: Strategic, Measurable, Global

Specialist Focus – Turning Insight into Action

GSC delivers actionable, high-impact advice by integrating deep expertise across Mining, Logistics, Oil & Gas, Renewables, and Agriculture. Each strategy is tailored to create measurable value and drive tangible results for our clients.

Global Investor Access – Connecting Opportunities with Capital

We link clients to the right strategic buyers, private equity firms, and investors, ensuring each opportunity is matched with the partner that maximizes potential and accelerates growth.

Global & Africa Expertise – Navigating Complexity with Confidence

Decades of local and international experience enable GSC to guide clients through regulatory, operational, and market challenges with clarity and precision, ensuring smooth and successful outcomes.

Our Services

Buy-Side Advisory

We help investors and companies identify, evaluate, and execute acquisitions aligned with their strategy. Our market intelligence, financial analysis, and operational insights secure high-value opportunities worldwide.

Pit-to-Port Support

From project packaging to post-transaction integration, GSC provides end-to-end support to manage risk, achieve strategic goals, and maximize long-term value.

Sell-Side Advisory

We guide companies divesting assets or raising capital, handling positioning, valuation, negotiation, and execution to maximize value and ensure a seamless transaction.

OVER
36
YEAR OF
EXCELLENCE

Able Helmsmanship

Capt.A. K.Saigal

Mr. A.K.Saigal is a qualified **Master Mariner** with extensive experience and commercial specialization in the field. His in-depth knowledge has brought new visions to fruition and added value and credibility to the organization.

Mr.Sushil Saigal

Mr. Sushil Saigal brings over **35+ years of experience** in shipbroking and chartering, specializing in dry bulk, Liquid, gas & container Chartering. He holds a Commerce degree from Bombay University, is a Chartered Accountant, and a Fellow member of the UK's Institute of Chartered Shipbrokers. Under his leadership, Saigal Sea Trade has achieved sustained strategic growth.

Mr. Deepak Saigal

Mr. Deepak Saigal completed his Bachelor's degree in Commerce from Bombay University, India, and is a certified Chartered Accountant. He has extensive experience in **shipbroking** and **chartering over 35 years**. He specialises in bulk commodities and has been responsible for enabling the organisation to grow to a leading position in the bulk trade routes into India.

Objectives

- Provide strategic maritime intelligence with precision and timeliness.
- Transform industry trends into actionable business insights.
- Drive measurable value through informed advisory.
- Foster robust partnerships across the maritime sector.
- Lead with data-driven expertise and thoughtful leadership.

Vision

To be a leader in innovative and ethical shipping solutions, creating lasting value for stakeholders while continuously enhancing global maritime operations.

Mission

Saigal Sea Trade, a **'Catalyst by Profession,'** delivers innovative and reliable shipping solutions, driven by integrity, excellence, and a commitment to growth.

Anchored for Growth

Established in **1988**, we are a trusted name in India's maritime industry, delivering seamless logistics solutions and safeguarding our clients' interests. With **headquarters in Mumbai** and a **branch in New Delhi**, our expert team and global partnerships drive the successful diversification of our shipping business.

Manifest Expertise - Let the Experts Handle Your Cargo...

- ⚓ In the shipping industry, owners/operators and cargo charterers work in synergy to achieve success, requiring specialized knowledge of both areas.
- ⚓ We provide local expertise and counterparty risk assessment to ensure optimal outcomes for clients, with our accredited shipbroking division serving large Indian clients and oil majors.
- ⚓ Our comprehensive portfolio include spot and period chartering, sale & purchase, and research.
- ⚓ Our team consists of well qualified Master Mariners, Chartered Accountants, and team of MICS (Member Institute of Chartered Shipbrokers UK), addressing local issues with a global perspective.
- ⚓ We have a proven track record of innovative solutions in seaborne transportation problem, providing expertise in market opportunities, operational analysis, voyage calculations as well as re-let and demurrage billing analysis.
- ⚓ We have a dedicated research setup with a team of analysts focused on providing in-depth market insights.

As Maritime Consultants, we successfully:

- Build trustworthy relationships with owners and charterers
- Source suitable vessel for specific cargo/trade
- Guide with our own prognosis based on knowledge & context, keeping all stakeholders in mind.
- Identify an appropriate opportunity to optimise vessel utilisation
- Provide real-time information on details of ships & cargo available for employment
- Guide on port restrictions & local regulations

Nature of Business

Dry Bulk Cargo

Our team has been closely associated with securing ocean freight for major industrial clients and power projects, with contracts ranging from 3-7 years and, in some cases, up to 15 years. We are currently involved in transporting approximately 30% of the coal imported to India.

Deep Sea Tankers

Offerings specialized and dedicated services for crude oil and petroleum products, across all vessel segments from handy size tankers to Very Large Crude Carriers (VLCC).

Chemical Tankers

Our committed and experienced consultants are trusted by all shippers of bulk liquids for handling a wide range of high-grade chemicals, operating high-class stainless steel and marine line-coated chemical coasters.

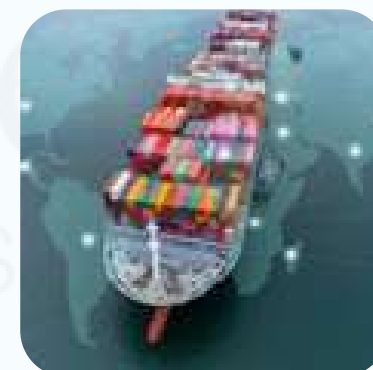

Gas Carriers

Keeping pace with the rapid growth of the gas industry, we bring extensive expertise and hands-on experience in handling LPG, LNG, and Ammonia carriers.

Projects

Specialized in facilitating Sale & Purchase and long-term charter of vessels, leveraging industry expertise, market analysis, and negotiation to deliver tailored and efficient solutions for clients.

In house Research

Our Research focuses on commercially driven insights, identifying emerging trends, opportunities, with actionable projects to foster business development, rather than pursuing research of an exclusively theoretical orientation.

Business Values - Honesty, Integrity & Reliability

Benefits for Charterers

Most charterers prefer to import on Free on Board (FOB) basis rather than Cost and Freight (CFR) basis. The benefits that we offer to charterer includes:

- ▶▶ Pulse on better freight rates with vessel owners
- ▶▶ Price negotiation on shipping terms and rates
- ▶▶ Advising buyers suitable to arrange pre loading survey of cargo to ensure quality
- ▶▶ Reliable transportation of cargo
- ▶▶ Better inventory management

Benefits for Ship Owners

Most ship owners prefer to work with us as the benefits that we offer to includes:

- ▶▶ Complete access to our local market knowledge
- ▶▶ Integrated post-fixture and operations support
- ▶▶ Up-to-date market insights
- ▶▶ Provide expertise on the spot and term market opportunities
- ▶▶ Well-established network of contacts built over the years
- ▶▶ Support on demurrage analysis & timely payments

Esteemed Portfolio

Our Clientele

-  As Maritime Consultants, we are proud of what we do and what we provide to our clients globally.
-  Our strategy is to build long-term relationships with our clients.
-  We partner with our clients and aim to deliver optimum results throughout all the project phases.
-  Quality, Innovation, Passion and Integration are pillars of success that help Saigal Sea Trade create synergies. With the number of clients, a few prominent clients are reflected below:

Enmarol Petroleum India Pvt Ltd.

Enmarol Petroleum India Private Limited, incorporated in 1996, is an established supplier of Fuel Treatment Chemicals (Fuel Additives) in India and the Authorised Distributor in India of Innospec Limited (United Kingdom) for supply of Octamar Marine Fuel Treatment Chemicals.

Innospec Limited is listed on the Nasdaq and is a global leader in fuel treatment chemical offering fuel additive technology to refineries, automotive, aviation, industrial, mining and marine sector with a revenue of over US\$ 2.0 Bn. Today, Innospec is effectively treating 1/3rd of the barrels of treated fuel production globally. Innospec is at the forefront of developing fuel treatment technology for a changing world to protect the environment. They leverage their extensive experience and expertise to support the fuel industry as it adapts to new opportunities and challenges of the future. Their strength is their unparalleled knowledge of fuel and how to improve fuel performance. This always keeps them one step ahead of the competitors. Octamar range of marine fuels treatment chemicals are designed to address the issues faced by today's marine fuels – VLSFO, HSFO, LSMGO and Biofuels. The immense depth of knowledge from the success in the refinery, automotive and power markets fuel treatment solution is now available to the Marine customers to effectively maintain engine efficiency and reliability irrespective of fuel quality.

Today, Enmarol supplies Octamar Marine Fuel Treatment Chemicals manufactured by Innospec Limited at their European facilities to customers across India attending to their vessels on the Indian coast and at international ports supported by 21 warehouses strategically positioned across the globe.

Innospec offers unique cutting-edge fuel stabilisers / detergents and combustion catalysts technology to enhance fuel stability and compatibility of HSFO, VLSFO, LSMGO and Biofuels; and significantly improving fuel combustion thereby the vessels can meet their CII ratings by reducing SFOC, meet their EU ETS targets by reducing GHG through better combustion and reduce Fuel EU impact.

For the first time, Innospec has quantified the CO₂ emissions savings from the use of their marine, gasoline and diesel fuel additives sold in 2024, their conservative analysis shows avoidance of over 20 million metric tonnes of CO₂, their

commitment to the environment is at the forefront and our customers recognise this commitment in our partnership with them to meet IMO targets.

ABOUT COMPANY

Established in 2021, Avenir Maritime stands as a trusted name in the maritime sector, offering expert representation for dry bulk and tanker operations. With a robust network spanning leading brokers, customs agents, freight forwarders, charterers, operators, and shipowners, we bridge critical connections across the dry and wet bulk shipping markets.

Our strong alliances with government bodies and port authorities further enhance our ability to deliver seamless and efficient services. Specializing in managing large-scale maritime projects, we take pride in consistently completing them ahead of schedule, demonstrating our commitment to operational excellence.

Avenir Maritime was founded by a dynamic team driven by passion and fortified by decades of experience. Our founders and partners collectively bring over 60 years of comprehensive expertise, covering a broad spectrum of the maritime industry.

The Avenir team has successfully spearheaded numerous ventures within the maritime sector, establishing a reputation for excellence. This proven track record empowers us to focus on our core capabilities—efficient ship management and commercial operations.

We are not just managing ships; we are shaping the future of maritime operations with precision, dedication, and an unyielding commitment to success.

OUR MISSION

- At Avenir Maritime, we believe that transparency is the foundation of trust and credibility. We are committed to open communication with all our stakeholders, including customers, employees, and partners. By providing clear and accessible information about our processes, pricing, and decision-making, we empower our clients to make informed choices. This commitment not only fosters stronger relationships but also enhances accountability at all levels of our organization.
- We view our customers as partners in our journey. At Avenir Maritime, we prioritize collaboration and mutual support. Our dedicated team works closely with clients to understand their unique challenges and objectives, ensuring that we are there for them not just during the initial engagement but throughout our partnership. This long-term commitment helps us anticipate their needs, adapt to changes, and deliver exceptional service consistently.
- Every client is unique, and so are their requirements. Avenir Maritime specializes in delivering tailored solutions that address the specific needs of each customer. Our approach involves thorough consultations and assessments, enabling us to design services and strategies that align perfectly with our clients' goals. By leveraging our industry expertise and innovative thinking, we ensure that our solutions not only meet but exceed expectations.
- Our commitment to maximizing stakeholder value is at the heart of our operations. We prioritize not only financial returns but also the broader impact of our business on the community, environment, and industry. By implementing sustainable practices, fostering innovation, and maintaining strong ethical standards, Avenir Maritime ensures that we create lasting value for all stakeholders, including investors, clients, employees, and the communities in which we operate.

OUR SERVICE

- **COMPREHENSIVE DRY BULK CARRIER SERVICES**

At Avenir Maritime, we specialize in comprehensive solutions for dry bulk carrier operations. Our expertise spans a wide range of vessel types, including Ultramax, Panamax, Supramax, and Handy vessels. With a commitment to efficiency and reliability, we ensure seamless management and operations tailored to the dynamic needs of the global maritime industry. Whether it's handling large cargo volumes or optimizing shipping routes, Avenir Maritime is your trusted partner for excellence in dry bulk shipping.

- **TANKER & CHEMICAL EXPERTS**

Avenir Maritime excels in tanker and chemical shipping, focusing on 10,000 to 20,000 DWT tonnage. We offer tailored solutions for complete and parcel cargo, primarily trading from the Persian Gulf (PG) and Arabian Gulf (AG) to South America (SA) and Southeast Asia (SEA). With specialized expertise, customized services, and a commitment to excellence, we ensure safe and efficient cargo transportation. Our vision is to establish a strong foundation in the chemical segment, driving growth and innovation while delivering reliable and sustainable solutions for our client

COASTAL SHIPPING OPERATIONS

Proven Expertise: Avenir has successfully executed over 50 fixtures in coastal shipping, demonstrating consistent performance and trustworthiness.

Leading Clients: Proudly transporting cargo for top industry names, including Tata Steel, Adani, Jindal and more, reflecting our strong client relationships.

Comprehensive Coverage: Providing efficient coastal shipping services across major Indian ports, ensuring reliable and timely deliveries.

Customized Operations: Offering flexible, tailor-made solutions to meet the specific logistics needs of our clients.

Operational Excellence: Committed to safety, compliance, and efficiency in every operation, ensuring smooth and dependable services.

Experienced Team: Managed by a team of seasoned professionals with deep expertise in coastal logistics and maritime operations. Additionally, Marine Solutionz, our subsidiary company, specializes in managing coastal shipping operations to ensure a comprehensive and integrated service experience.

[AVENIR MARITIME PTE LTD](#)

Fleet Management Limited

Fleet Management Limited (Fleet), a subsidiary of The Caravel Group, provides professional ship management services that advance economic development. The organisation transports 1% of the world's containers and 2% of commodities, pioneering new industry benchmarks. The company's 27,000+ seafarers and 1,300+ shore-based employees operate 600+ ships under management, serving 130+ world-class shipowners. As custodians of our clients' vessels and cargo, Fleet Management combine expertise, reliability, innovation and sheer passion that have enabled us to become the one of world's largest ship managers. Our capabilities and competencies include:

SHIP MANAGEMENT:

Fleet Management manages a range of vessels, including bulk carriers, containers, car carriers, oil tankers, gas carriers and chemical tankers from 600 to 320,000 DWT in size – with many being young and energy-efficient with an age profile below the industry average. Fleet Management prides itself on the technical management of more than 30 dual-fuel vessels spanning LNG and LNG dual-fuel, Methanol and LPG. The organisation is a pioneer in methanol powered shipping, accumulating more than 15 years of experience in managing these vessel kinds. All our ships meet the industry's highest standards, including ISO 9001, ISO 14001, ISO 50001, OHSAS18001.

NEWBUILDING SUPERVISION:

Our experienced Newbuilding supervision department skilfully manages vessel construction across the Asia Pacific and has delivered 300+ ships from yards in India, China, Korea, Japan, Vietnam, and the Philippines. Our portfolio boasts pioneering vessels, including the first air-lubricated post-Panamax bulk carriers, advanced self-unloaders, dual-fuel chemical tankers, 180,000 m³ LNG tankers, and LNG-ready Very Large Ethane Carriers (VLEC). Today, we supervise over 100 ships of which 30% are dual fuel methanol and dual fuel LNG.

INSURANCE:

At Fleet, we proactively manage risk by preventing accidents and learning from industry incidents to elevate operational standards. Our expert marine insurance team offers clients a one-stop solution for efficient and economical risk management, catering to all their marine insurance needs. We make sure claims are kept to a minimum, working with global market insurers to offer very attractive premiums.

TRAINING:

We invest in our people, offering seafarers opportunities for growth and career advancement, helping develop the next generation of maritime leaders. Our Fleet Management Training Institute (FMTI), certified by the Directorate General of Shipping and DNV, delivers comprehensive training programs to enhance our crew's knowledge and skills, emphasizing safety, regulatory compliance, and ship efficiency.

CREW MANAGEMENT:

Our crew management services are designed not only to meet today's challenges but to anticipate tomorrow's, ensuring our clients' fleets operate efficiently and safely across the globe. From recruitment to continuous education, we manage the entire crew lifecycle. Our recruitment services draw on a global network of seafarers, providing a diverse and highly qualified pool of talent.

CREW WELLBEING & WELFARE:

The Fleet Care team focuses on the wellbeing of our crew, ensuring that mental health, family support, and comprehensive welfare programmes are embedded into our operations. This unique team is made up of professionals from different backgrounds including aviation, hospitality, and psychology. Together, they channel their shared passion to do everything in their power to nurture the health and wellbeing of our seafarers. They conduct regular outreach to seafarers and their family members, providing emotional, social, and psychological support via phone calls, emails, and instant messages, including hosting engagement activities.

TECHNOLOGY & INNOVATION:

Fleet Management recognises technology is not just a tool but a powerful catalyst for transformation, enabling effective management and decision-making processes across all levels of operation. Our commitment to technological innovation is embodied in PARIS (Planning And Reporting Infrastructure for Ships), a fully integrated solution designed to bridge the gap between ship and shore. PARIS delivers comprehensive intelligence, empowering both owners and crew with the data they need at their fingertips. PARIS is equipped to support the incorporation of emerging technologies, including machine learning and Generative AI.

NUTRITIONAL WELLBEING:

Fleet Management's Quality Catering Division - Established in 2007 - is responsible for maintaining high-standard galley operations onboard a majority of vessels managed by the organisation. The team successfully sees the victualing management, the 24 x 7 supply of provisions, and also actively training over 450 saloon ratings every year. Our team also serves 150+ nutritious recipes, resulting in 1 million+ meals served per year.

OUR 'ENCOMPASS' SUSTAINABILITY STRATEGY:

The 'Encompass' sustainability strategy showcases our commitment to global responsibility, with four main pillars: Navigating Responsibly, Evolving Environmental Stewardship, Safeguarding People, and Working Together. Each of these pillars aligns with certain UN Sustainable Development Goals, and we have set targets to track our progress and inspire us to further action.

Introducing - Jalashvaa Maritime Pvt Ltd: Charting a New Course in the Maritime Industry

Jalashvaa Maritime Pvt Ltd

[Introducing Jalashvaa Maritime Pvt Ltd: A quality player in the field ship owning and operations.](#)

Jalashvaa Maritime Pvt Ltd is a dynamic and forward-thinking maritime services company, headquartered in India with an international presence. Guided by the principles of the ownership mindset and to challenge convention so as to create value in business, the company is swiftly emerging as a reputable force within the global maritime management sector.

[Strategic Expansion and Diversification:](#)

Currently, Jalashvaa Maritime is undergoing a significant restructuring process, marked by the establishment of overseas offices and the acquisition of a broad spectrum of vessels, diversifying into dry bulk carriers, LPG carriers, and offshore vessels. The company has also ventured into maritime business financing, ship building, technical consultancy, and IT services, demonstrating a commitment to diversification and innovation within the maritime industry.

[Major Achievements and Project Management:](#)

Among the company's most notable milestones are its acquisitions in maritime finance and ship building, both in India and internationally. Jalashvaa Maritime takes pride in its role as project manager for new ship building initiatives, overseeing not only conventional ships but also the largest ammonia-driven bulk carrier, showcasing its expertise in managing complex and environmentally forward projects.

[Investment in New Ship Building Projects:](#)

To further broaden its portfolio, the company has established a dedicated division for investing in new ship building projects. This initiative is aimed at expanding Jalashvaa Maritime's range to include a wider variety of vessel

types, reinforcing its position as a versatile and forward-looking player in the maritime sector.

[Commitment to Excellence:](#)

With a steadfast dedication to excellence and reliability, Jalashvaa Maritime strives to set new industry benchmarks. The company is committed to delivering consistent quality and raising standards within the maritime sector.

[Looking Ahead:](#)

Jalashvaa Maritime Pvt Ltd invites stakeholders to join in its journey as it pursues greater achievements and continues to redefine the standards of the maritime industry in India and globally.

Kshitij Marine Services Pvt Ltd.

- Responsive and customer-centric service approach

Our Vision:

To become a globally recognized shipping and logistics partner by delivering innovative, reliable and value-driven shipping solutions

RENATA PARTNERS

Advocates & Consultants

www.renatapartners.com

25.02.2026

ABOUT THE FIRM

Renata Partners has a broad-based practice in domestic and international commercial disputes, with a particular focus on shipping/maritime (wet and dry), admiralty laws, international trade & commodities, insurance & re-insurance, and related areas. Our advice and solutions are tailored to meet the unique needs of industry stakeholders both at the pre-dispute and dispute stage.

We have extensive experience in assisting with transactions of ship sale purchase directly from the shipyard. This involved advising clients on a comprehensive, end-to-end basis, including drafting and negotiating memoranda of agreement, coordinating inspections and surveys, managing and structuring escrow and payment arrangements, liaising with flag states and registries, arranging delivery documentation, and overseeing completion and post-delivery matters to ensure a smooth and commercially secure transfer of ownership.

We also regularly handle disputes relating to bunker supplies, charterparties, bill of lading and other contracts of carriage including disputes concerning cargo damage/quality/shortage - bulk, dry, liquid and containerized cargo, disputes relating to off-hire, demurrage/detention, wrongful termination, ship sale purchase. We routinely deal with claims/disputes concerning a wide array of vessels such as bulk carriers, tankers, container ships, LNG carriers, ro-ro transporters and offshore vessels. In international trade, we specialize in resolving disputes under CIF, FOB, and other contractual frameworks for the sale and purchase of goods, addressing issues such as title, quality, rejection, pricing, and price adjustments. We have handled and advised on casualties, viz oil pollution, wreck removal, death on board, grounding of vessels.

We have advised port authorities / terminals / shipyards on various contractual issues including securing possession of assets, as well as issues posed by Customs authorities in respect of statutory circulars, etc. We have also dealt with various claims concerning port authorities including illegal detention of vessel, damage to port property / assets and charges levied by port / terminals.

Our services also extend to handling and advising on claims arising out of multimodal transport contracts - including transport by truck, air and storage at warehousing. We assist with drafting and negotiating carrier terms and conditions, charterparties, sale contracts, ship - sale purchase contracts.

Our experience spans from providing strategic legal advice to assist in transactional work. We have successfully managed and supervised numerous sale and purchase transactions from initial offers to closing, involving a diverse range of vessels, from tankers to offshore ships. We routinely represent and advise various domestic and international industry stakeholders, such as shipowners, charterers, ship managers, importers/exporters, container shipping lines, P&I clubs, public sector undertakings, corporations, traders, and agencies.

SHIVKUMAR IYER

MANAGING PARTNER

Mr. Shivkumar Iyer has over two decades of experience in maritime litigation before the Bombay High Court and other courts in India, involving a plethora of legal issues. He has been involved in matters pertaining to various maritime casualties. He has been liaising with Indian maritime and Customs Authorities on a regular basis. Over the last decade he has been involved in high valued international commercial arbitrations involving shipping and international trade disputes, international commodity sale-purchase contracts, taxation disputes, before International Commercial Arbitrations including LMAA, SCMA, and ICC.

Contact Shiv

+91-983-389-3038

shiv@renatapartners.com

He has considerable experience in arbitration associated litigation, ranging from appointment of arbitrators to challenge of arbitral awards. His expertise also extends to providing legal opinion on issues pertaining to reference to arbitration, workability of potential arbitrations, etc. He, along with the firm, has represented leading global companies as well as various Indian PSUs in high value arbitrations.

He obtained his degree in law from Government Law College (GLC), Mumbai University. Thereafter, he specialized in Maritime Law from the University of Southampton. He is well seasoned in handling disputes in both dry as well as wet shipping and has been a part of major maritime litigations before the Bombay High Court and other courts in India.

Prior to starting Renata Partners, he was a partner at Bose & Mitra & Co. and Ganesh & Co. He has also been involved in commercial arbitrations for shipping and international commercial disputes, international commodity sale- purchase contracts, etc. He has been actively involved in providing legal as well as strategic advice to clients.

He has been involved in handling and advising on several maritime casualties, ranging from collisions, groundings, oil spills to fatal accidents on board vessels leading to death and personal injury. He has first-hand experience in post casualty investigations and regularly works along with marine surveyors and officers and crew of vessels.

He Identified, negotiated, and acquired 12 ships and 2 inland vessels for coastal trade in last decade for JITF and Allcargo and put them into service on the Indian coast after completing all registration and statutory process. Capt Shrivastava is well versed with P&I, insurance and claims matter having been the head of three different commercial shipping ventures.

**Mr. Deepak Kumar Sharma,
Managing Director
BainBridge Navigation**

Mr. Deepak Kumar Sharma is the Managing Director of BainBridge Navigation Group.

He completed his shipping studies at Singapore Maritime Academy and pursued an MBA in Operations Management from SP Jain School of Global Management, Singapore.

His professional journey spans nearly two decades, and it all began in 2004 when he sailed onboard with NSSPL (Part of APL-NOL Group). He then transitioned to the role of Operations and Chartering at Daiichi Chuo Shipping (Singapore) Pte Ltd, where he spent around 2 years in Chartering and vessel Operations.

His career continued to evolve as he took on the responsibilities of Manager- Chartering and Shipping at CMB Bocimar. Subsequently, he moved to Norvic Shipping, where he established the Dry Bulk Desk for the company and spent nearly five years playing a pivotal role in the company's success during his tenure.

In 2017, he embarked on a new and exciting chapter in his career by founding BainBridge Navigation. His entrepreneurial spirit and wealth of experience continue to drive the success of this endeavor.

BainBridge Navigation operates as a prominent operator and owner within the dry bulk and tanker segments. The company is dedicated to providing tailored and efficient freight solutions to clients globally, thereby contributing significantly to the cost-effective and secure transportation of commodities across various destinations worldwide.

Since its inception, the company has successfully completed over 3,500 voyage fixtures across more than 10,000 port calls globally, carrying approximately 205 million MT of cargo. At any given time, BainBridge operates a fleet of 65–70 vessels worldwide.

With a combination of committed service providers and partners, a fleet of outstanding ships, and a robust financial system, BainBridge Navigation ensures high-quality service with prompt responsiveness. The company's

offices are strategically located in key maritime hubs such as Singapore, India, United Arab Emirates, Malaysia, and Germany.

**Capt. Ashish Chauhan,
C.E.O.,
Transworld Shipping Lines**

Experienced Master Mariner with a demonstrated history of working in the Shipping & Logistics industry. Skilled in Operations Management, Maritime Operations, Commercial Management, Logistics Management, and Strong Team Leadership. Earlier, he has served for many years on various types of cargo vessels as a Navigating Officer, including as a Master.

Strong management professional with a HND in Maritime Studies from Solent university Southampton (UK), and EMBA from IIBM institute of business management New Delhi.

**Ms. Ritu Chaudhri,
Director,
Enmarol Petroleum India Private Limited**

Ritu Chaudhri is an MBA graduate from the University of Connecticut who began her career as a senior management consultant at Arthur Andersen.

She is the Promoter Director of Enmarol Petroleum India, which since 2006 has been the authorized Indian distributor for Innospec Limited (UK), a NASDAQ-listed global fuel treatment chemical company with a \$2B turnover. Enmarol represents Innospec's marine fuel treatment chemicals across India, serving major ship owners and managers.

Over 17 years, Ritu has been an industry speaker on marine bunker challenges and the use of Octamar fuel treatment solutions, particularly in the context of growing environmental regulations. From a merchant mariner family, she is known as a driven businesswoman committed to excellence.

**Mr. Priyabrata Padhi,
Manager - Price Reporting, Shipping and Freight,
S&P Global Energy**

Priyabrata Padhi is Manager, Price Reporting, Shipping and Freight at S&P Global Energy. He leads a team of market editors focussing on daily freight assessments and wider market coverage spanning Dry bulk shipping and Container shipping sectors. The team's coverage includes Asia Pacific regional Container markets and global Capesize segment as well as the regional Supramax, Panamax and Handysize segments in the Asia-Pacific region for Dry Bulk shipping.

Priyabrata Padhi has extensive experience in the commodity supply chain, with over 9 years of functional experience across a broad range of areas, including freight derivatives trading, risk management, strategic planning, demand planning and analytics. Prior to Joining S&P Global, he was with Tata NYK, managing the derivatives desk based in Singapore.

James Lumley

GSC - MANAGING DIRECTOR

Global Mining Executive | Africa-Focused Growth

James Lumley is a seasoned executive with over 30 years of leadership experience in the global resources sector. Over the course of his career, he has led diverse mining operations across international markets, consistently delivering strong operational performance and long-term value creation.

He has built a reputation for driving sustainable growth, improving efficiencies, and executing strategic expansion across multiple mining ventures, while aligning commercial objectives with responsible resource development.

**Mr. Aishwarye Dubey,
Maritime Lawyer & Advisor,
A.P. Moller Maersk, Mumbai**

Advocate Aishwarye Dubey is a distinguished Indian maritime lawyer, legal strategist, and academic contributor known for his extensive work in the fields of shipping law, maritime policy, international trade, logistics, and seafarers' rights. Over the years, he has emerged as a prominent voice advocating for structural reforms in India's maritime ecosystem, with a special focus on strengthening indigenous maritime capacity, legal awareness, maritime education, and institutional development.

With a professional background that integrates legal practice, maritime operations, policy analysis, and strategic advisory, Advocate Dubey possesses a multidisciplinary understanding of the global shipping industry. His work spans diverse areas including maritime arbitration, admiralty disputes, marine insurance, carriage of goods by sea, ship financing, international maritime conventions, and regulatory compliance under frameworks such as SOLAS, MARPOL, COLREGs, and the Maritime Labour Convention (MLC). He is widely appreciated for his ability to simplify complex maritime legal issues while simultaneously offering commercially practical and strategically viable solutions.

Advocate Dubey has actively contributed to the development of maritime legal education in India. He has been associated with academic institutions as a visiting faculty member and mentor, where he has guided students and maritime professionals in understanding the practical dimensions of maritime law and global shipping governance. His efforts have particularly focused on encouraging young Indian talent to enter the maritime sector and compete at international platforms. Through lectures, workshops, policy discussions, and legal training programmes, he continues to promote greater awareness regarding India's maritime potential and strategic importance.

In addition to his academic and legal engagements, Advocate Dubey is deeply involved in policy-oriented discussions concerning India's maritime growth. He has consistently advocated for the establishment of stronger domestic shipping infrastructure, indigenous shipbuilding ecosystems, maritime consultancy firms with global outreach, and a dedicated Indian

Maritime Service (I.M.S.) to enhance governance, logistics, trade security, and maritime administration. His writings and policy recommendations frequently address contemporary issues such as geopolitical conflicts affecting global trade routes, cyber-security challenges in shipping, the role of Artificial Intelligence and Blockchain in maritime logistics, and the legal implications of evolving international sanctions regimes.

A committed supporter of seafarers' welfare, Advocate Dubey has also spoken extensively on issues including illegal recruitment practices, crew abandonment, wage disputes, exploitation by intermediaries, and the broader human rights challenges faced by Indian seafarers and their families. His work reflects a strong commitment towards ensuring accountability, transparency, and justice within the maritime employment and shipping sectors.

Known for his analytical clarity, strategic thinking, and dedication towards maritime nation-building, Advocate Aishwarye Dubey continues to contribute meaningfully to India's evolving maritime and legal landscape. Through his professional practice, academic initiatives, policy advocacy, and thought leadership, he remains committed to strengthening India's position as a globally influential maritime power.
